Anyway, tiny homes allow you to own your property, even it if only measures between 100 and 400 square feet.

However, building your own functional housing, no matter how small, is still a task, but Amazon has stepped in to ensure this process goes smoothly.

Interestingly, you can build it in your own back yard in under a day.

Amazing Guest House Tiny Home Kit on Amazon

To get this kit delivered on your doorstep and start building it today, you need to spare $6,500.

ezstandalone.cmd.push(function () { ezstandalone.showAds(132); });
This tiny home building can be used to create your pool house, a studio, an office, a guest room, etc. The shipping is free-of-charge.

It offers a floor space of 16 square meters, plus an outdoor deck-like place where you can put your grill for barbecue!

Timeless Design & Made from Strong Nordic Wood

According to the seller, the Solvalla garden house kit is constructed from strong Nordic wood and has a timeless design.

ezstandalone.cmd.push(function () { ezstandalone.showAds(133); });
It's a great alternative to the classic log cabin structures and it will adapt to a lot of surroundings.

Place it on rooftops or multi-story buildings, it's perfectly fine! To assemble it, you need a day and someone to help you with it.

Just follow the detailed instructions and you're good to go. In terms of tools, they're minimal and listed there.

ezstandalone.cmd.push(function () { ezstandalone.showAds(134); });

You needn’t be a specialist or have some special construction tools to make it- however; you’ll need to purchase your foundation materials and roof shingles.

What do you think about this tiny home kit which you can build yourself? Would you invest in it? Tell us your thoughts in the comment section below.
